8. Cost Basis Election

Homestead Funds will report cost basis information to both shareholders and the Internal Revenue Service (IRS) on mutual fund shares acquired and subsequently redeemed after January 1, 2012. In order to deliver this service to you, we ask that you select a cost basis accounting method for your new account. If you do not elect a method, our default method of Average Cost will be used.

Please choose one of the following available methods:

- Average Cost** — the purchase price of all covered shares in the account are averaged
- First In, First Out** — depletes shares beginning with the earliest acquisition date
- Last In, First Out** — depletes shares beginning with the most recent acquisition date
- High Cost** — depletes shares beginning with the most expensive shares
- Low Cost** — depletes shares beginning with the least expensive shares
- Specific Lot Identification** — depletes shares according to the lots chosen by the shareholder. FIFO will be used for shares withdrawn due to a systematic withdrawal plan and in cases where the lots you designate are insufficient or unavailable.

Please consult your tax advisor to determine which cost basis accounting method best suits your individual tax situation.

If we cannot determine your election method, you will be defaulted to Average Cost.
